

# BX Bid

All-in-One, Easy to Use,  
Multi-Purpose Bid Delivery System

## Complimentary Set-Up & Contact Verification

Builders Exchange of Dayton sets up your database of bidders. We verify all company and contact information. Access the largest database in Ohio—build a private bid network from 65,000+ companies.

## Create a Private Planroom

Use the Builders Exchange extensive database of projects for instant transfer to your private planroom or keep your job private by sending or uploading the bid documents. Planroom professionals will scan and catalog images at no additional cost to you, or just upload the documents and go. Build customized ITB lists with comprehensive scope, personal notes and details. Rate your bidders, customize your site, reports and much more.

## Establish Preferred Groups

Companies that always work on certain types of projects can be selected as a group. Copy any previous bidders' list to a new project, or create a favorites list.

## Identify Priority Contractors

Choose from EDGE, FBE and other minority-owned companies, or choose companies based on geographical distance from project.

## Communicate Instantly

With one click, you can send ITB's, addendum notifications, announcements, etc. as you need by e-mail, fax or both. Don't tie up your phone lines and server—all information goes through our state-of-the-art system 24/7.

## Stay in Control of Your Bid Process

Track who has viewed the project, what they have looked at, and when they looked at it. Plus, a feature that requires your subs and suppliers to respond to your ITB by the date you set. This saves you precious time as the bid date approaches.

## Manage Your Information

Subs and suppliers can easily access the drawings and specs at no charge to them—they don't even have to be a Builders Exchange member! They can also order copies through the Builders Exchange or download and print them to their printer/plotter.

## Expert Customer Service

Our BX Bid Specialists will field all your bidder inquiries. Companies using BX Bid have found that sending all ITB's to companies with a free, valid e-mail address keeps their distribution costs down, increases bidder responses and reduces response time.

**Take a FREE Trial and see for yourself how easy BX Bid makes creating, controlling and managing your ITB's!**

Currently used by  
over 90 Ohio  
General Contractors!

## MANAGE DOCUMENTS

Your choice: we can handle the documents for you or choose the new self-service option – you upload your documents and go!
